203	ヒバ_2.10m	64cm

204	ヒバ_2.10m	62cm

205	ヒバ_2.10m	52cm

A photograph of a cut log, identified as item 205. The log is oriented vertically with its cut end facing the camera. The end face is circular and shows the wood grain. A yellow label is attached to the end face, containing handwritten information. The bark is light brown and appears to be partially removed or peeling. The log is resting on a dark, possibly asphalt or concrete, surface. In the background, other logs are visible.

206	ヒバ_2.10m	58cm

A photograph of a cut log, identified as item 206. The log is oriented vertically with its cut end facing the camera. The end face is circular and shows the wood grain. A yellow label is attached to the end face, containing handwritten information. The bark is light brown and appears to be partially removed or peeling. The log is resting on a dark, possibly asphalt or concrete, surface. In the background, other logs are visible.

207	ヒバ_2.10m	52cm

A photograph of a cut log, identified as item 207. The log is oriented vertically with its cut end facing the camera. The end face is circular and shows the wood grain. A yellow label is attached to the end face, containing handwritten information. The bark is light brown and appears to be partially removed or peeling. The log is resting on a dark, possibly asphalt or concrete, surface. In the background, other logs are visible.

208	ヒバ_2.10m	60cm

A photograph of a cut log, identified as item 208. The log is oriented vertically with its cut end facing the camera. The end face is circular and shows the wood grain. A yellow label is attached to the end face, containing handwritten information. The bark is light brown and appears to be partially removed or peeling. The log is resting on a dark, possibly asphalt or concrete, surface. In the background, other logs are visible.

209	ヒバ_2.10m	60cm

A photograph of a large, tapered log, likely a cedar (ヒバ), lying on a dark surface. The log is oriented vertically with the cut end at the bottom. The bark is light-colored and appears to be peeling or shaggy. A yellow label is attached to the cut end of the log. The log is significantly wider at the top than at the bottom.

210	ヒバ_2.10m	64cm

A photograph of a large, tapered log, similar to the one in image 209, lying on a dark surface. The log is oriented vertically with the cut end at the bottom. The bark is light-colored and appears to be peeling or shaggy. A yellow label is attached to the cut end of the log. The log is significantly wider at the top than at the bottom.

211	ヒバ_2.10m	50cm

A photograph of a large, tapered log, similar to the others, lying on a dark surface. The log is oriented vertically with the cut end at the bottom. The bark is light-colored and appears to be peeling or shaggy. A yellow label is attached to the cut end of the log. The log is significantly wider at the top than at the bottom.

212	ヒバ_2.10m	56cm

A photograph of a large, tapered log, similar to the others, lying on a dark surface. The log is oriented vertically with the cut end at the bottom. The bark is light-colored and appears to be peeling or shaggy. A yellow label is attached to the cut end of the log. The log is significantly wider at the top than at the bottom.

213	ヒバ_2.10m	56cm

A photograph of a cut log, identified as ID 213. The log is positioned vertically, showing its cross-section. The bark is light brown and peeling. A yellow label is attached to the cut surface, containing handwritten and printed information. The log is resting on a wooden pallet.

214	ヒバ_2.10m	60cm

A photograph of a cut log, identified as ID 214. The log is positioned vertically, showing its cross-section. The bark is light brown and peeling. A yellow label is attached to the cut surface, containing handwritten and printed information. The log is resting on a wooden pallet.

215	ヒバ_2.10m	68cm

A photograph of a cut log, identified as ID 215. The log is positioned vertically, showing its cross-section. The bark is light brown and peeling. A yellow label is attached to the cut surface, containing handwritten and printed information. The log is resting on a wooden pallet.

216	ヒバ_2.10m	68cm

A photograph of a cut log, identified as ID 216. The log is positioned vertically, showing its cross-section. The bark is light brown and peeling. A yellow label is attached to the cut surface, containing handwritten and printed information. The log is resting on a wooden pallet.

217	ヒバ_2.10m	70cm

A photograph of a large, thick log (ID 217) lying horizontally. The log is cut at one end, revealing a light-colored wood interior. A yellow label is attached to the cut surface. The bark is rough and textured. The log is resting on a dark, possibly asphalt or concrete, surface.

218	ヒバ_2.10m	54cm

A photograph of a log (ID 218) lying horizontally. The log is cut at one end, revealing a light-colored wood interior. A yellow label is attached to the cut surface. The bark is rough and textured. The log is resting on a dark, possibly asphalt or concrete, surface.

219	ヒバ_2.10m	50cm

A photograph of a log (ID 219) lying horizontally. The log is cut at one end, revealing a light-colored wood interior. A yellow label is attached to the cut surface. The bark is rough and textured. The log is resting on a dark, possibly asphalt or concrete, surface.

220	ヒバ_2.10m	58cm

A photograph of a log (ID 220) lying horizontally. The log is cut at one end, revealing a light-colored wood interior. A yellow label is attached to the cut surface. The bark is rough and textured. The log is resting on a dark, possibly asphalt or concrete, surface.

233	ヒバ_2.10m	68cm

A photograph of a large cut log, identified as item 233. The log is cut at one end, revealing a light-colored wood interior with a distinct growth ring pattern. A yellow label is attached to the cut surface, containing handwritten and printed information. The log is positioned outdoors on a dark, possibly asphalt, surface.

234	ヒバ_2.10m	58cm

A photograph of a large cut log, identified as item 234. The log is cut at one end, showing a light-colored wood interior with a growth ring pattern. A yellow label is attached to the cut surface. The log is outdoors on a dark surface.

235	ヒバ_2.10m	66cm

A photograph of a large cut log, identified as item 235. The log is cut at one end, revealing a light-colored wood interior with a growth ring pattern. A yellow label is attached to the cut surface. The log is outdoors on a dark surface.

236	ヒバ_2.10m	50cm

A photograph of a large cut log, identified as item 236. The log is cut at one end, showing a light-colored wood interior with a growth ring pattern. A yellow label is attached to the cut surface. The log is outdoors on a dark surface.

237	ヒバ_2.10m	56cm

A photograph of a cut log, identified as item 237. The log is cut at one end, revealing a light-colored, circular cross-section. A yellow label is attached to the cut surface, containing handwritten and printed information. The bark is thick and textured, and the log is surrounded by other logs in a dark, outdoor setting.

238	ヒバ_2.10m	54cm

A photograph of a cut log, identified as item 238. The log is cut at one end, revealing a light-colored, circular cross-section. A yellow label is attached to the cut surface, containing handwritten and printed information. The bark is thick and textured, and the log is surrounded by other logs in a dark, outdoor setting.

239	ヒバ_2.10m	60cm

A photograph of a cut log, identified as item 239. The log is cut at one end, revealing a light-colored, circular cross-section. A yellow label is attached to the cut surface, containing handwritten and printed information. The bark is thick and textured, and the log is surrounded by other logs in a dark, outdoor setting.

240	ヒバ_2.10m	64cm

A photograph of a cut log, identified as item 240. The log is cut at one end, revealing a light-colored, circular cross-section. A yellow label is attached to the cut surface, containing handwritten and printed information. The bark is thick and textured, and the log is surrounded by other logs in a dark, outdoor setting.
